Geometry spreadsheet postulated by free segment of free extended segment this spreadsheet containing segmental addition problems. 4 are only no. And students need to find the absent length. 4 Containments and students need to configure an equation to resolve to x. And both last two problems include a diagram and require students to configure an equation and resolve x and the lengths of each segment. Response key included in the document. ***** Customer Tips: How to Get TPT Creeps: Postular Activity Segment Address Partnership to practice the postulate segment and verify answers. Both students are a set of 10 problems. Although students have different questions, they must receive the same answers! This activity can be used in vain ways: homework, class practices or review. Use -however, better help your students master the concept. There is a variety of problems included. Verify that it is right for your add-time addition to task cards by task cards by addition of task cards, this one © a set of 12 task cards for use in your geometry classroom in teaching teaching.
